Institute Medical Doctor

CORONA VIRUS REPORTING POLICY

Greetings Brethren,

As we continue to deal with the Corona Virus infection, the International Board of Trustees is continuing to monitor the health of the members across the IDMR. The purpose of this correspondence is to remind all branches of the reporting policy concerning affected members.

If any Institute member is diagnosed with or is tested for the corona virus, they are to report this information to the dean or president. The dean or president, as applicable, shall contact Dr. Marlon Farley. Dr. Farley will inform the local official of further action needed by the local branch, if any. The gathering of this timely and accurate information is vital in assisting the local officials in the identification of any potential outbreaks among class members.

Prior to calling Dr. Farley, please collect the name of the class member as well as the date that they were tested or diagnosed. If the member prefers to contact me directly, please forward my contact information to them. All information will be kept in the strictest confidentiality for the protection of the member(s).

For any questions or concerns, please send an email to: international@idmr.net.

Yours in Yahshua,

Marlon Farley, M.D.
Member, International Board of Trustees and
California State Vice President
