

Memo

To: All IDMR Branch Schools and Cottage Meetings

From: IDMR International COVID-19 Team

Date: March 28, 2025

Re: Updated COVID 19 Guidelines

Since the start of the pandemic, we have closely monitored the effects of COVID-19 in the world and in the IDMR branch school network. Currently there are increased infections from Flu, RSV, and other contagious illnesses, while at the same time positive Covid-19 cases are declining. *The FLU virus has caused more infections and deaths throughout the country than COVID-19 for the first time since the start of the pandemic.*

Therefore, *effective immediately*, the IDMR is updating the COVID-19 guidelines. As we move forward, a strong emphasis should still be placed on **HONEST** and **VIGILANT** self-checks for symptoms as stated in the *updated **IDMR Screening & Infection Guidelines***.

The IDMR Self-Check Screening remains an essential tool to continue the safe operation of all class functions. There will always be continued prevalence of contagious diseases such as:

- Contagious/Respiratory illnesses: FLU A & B , RSV, COVID-19, common cold, etc.
- [Norovirus \(Stomach Flu\)](#).

The ***IDMR Self-Check Screening and Infection Guidelines*** are routinely adjusted in conjunction with recommendations from public health authorities to help maintain a safe environment in our class settings.

Your continued cooperation with following all guidelines will allow us to perform the will of our heavenly father to be a public witness to His great gospel!

Note: Please continue to notify your local COVID-19 Team of any positive COVID cases.
